Full Description: Diced Pears in Pear Juice Concentrate are prepared from pears that have been peeled, with cores and stems removed, and cut into approximate cubes packed in pear juice from concentrate and water. The product is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

Quality Characteristics:

Style	Diced – Peeled pears, with cores and stems removed, cut into approximate cubes.
Quality	Must meet USDA Grade B. Must comply with USDA Standards for grades of Canned Pears, with modifications noted within these specifications.
Color	Units must possess a reasonably good color that is light yellow-white or light beige-white or light greenish-white. May be light tan or possess a very slight tint of pink.
Size	Units may vary in symmetry and not more than 15 percent, by weight, of the units may be of such size as to pass through 5/16” square openings.
Character	Units shall be reasonably tender, may be slightly firm but not mushy. Units may possess a texture of moderate graininess but not marked graininess.
Defects	Units must be reasonably free from defects that materially affect the appearance or edibility of the product.

Physical Characteristics:

Seneca Foods Corporation produces our products to meet a target specification at the time of production. Due to the nature of our commodity products, there are factors such as product maturity, variety, moisture level, and the growing conditions of each particular field which may cause a deviation from the target specification as the product cycles through the shelf life.
